

The legal support to help power your projects

GA Energy is our bespoke energy law service, offering specialist energy legal advice and support tailored to meet your individual needs

We are passionate about the energy sector and we are committed to adding value to your projects. We adapt our approach to meet your business needs. We can offer a virtual in-house niche energy lawyer to work closely with you or your in-house legal team or we can offer a more traditional legal support role as and when you need us, across your project portfolio or on single instructions when you need some additional support.

We work on projects throughout the UK across a range of technologies including solar, wind, anaerobic digestion, hydro power, battery storage and energy from waste.

We can help you with:

Property & Finance

- Drafting and negotiating heads of terms
- Options and agreements for lease to secure land rights
- Leases and transfers of land
- Deeds of easement and wayleaves for cable routes and access
- Licences including for early access and to carry out works
- Reports and certificates of title
- Direct agreements required by funders
- Preparation of loan, guarantee and security documents
- Post completion variations

Corporate / Commercial

- Corporate/Commercial
- Share purchase and asset purchase agreements
- Acquisitions and disposals of energy projects
- Non disclosure agreements and exclusivity agreements
- Power purchase agreements for direct supply
- Operation and maintenance agreements
- Supply and offtake agreements

Business Support

The team has the support, resource and backing of the wider firm and can provide additional support to your business, in particular drawing on the expertise of GA's employment team, intellectual property, litigation, dispute resolution and trusts lawyers. Some useful links:

- [Property litigation](#)
- [Employment advice](#)
- [Corporate/Commercial](#)

Our clients include:
